## Celebrating 75 Years of Probiotic Science

This year Yakult celebrates 75 years since Dr Shirota developed Yakult, using the probiotic strain *Lactobacillus casei* Shirota that he had discovered earlier in 1930. Probiotic research has been going strong ever since, and has now considerably intensified and diversified. This symposium provides a platform for experts to present the latest research on probiotics relating to a range of health and disease conditions. The aims of this one-day symposium are:

- to give an overview of the current research into the various health benefits of probiotics
- to provide an insight into the potential of probiotics in different healthcare situations.

The symposium would be of interest to all healthcare professionals, students and researchers, and in particular those specialising in nutrition and dietetics, primary care, infection control, care of the elderly, sports science and gastroenterology.

### SYMPOSIUM FEE

Standard cost is £100, reduced to £50 for NHS employees. The fee includes a full day of presentations, a conference folder, lunch and refreshments.

### BOOK BEFORE 31<sup>ST</sup> JULY TO BE ELIGIBLE FOR EARLY BIRD RATES: £75 (STANDARD), OR £35 (NHS).

Payment should be made by cheque, payable to 'Yakult UK Ltd'.

### SUBSTITUTE DELEGATES

If delegates are unable to attend, they may substitute a colleague but please try to give at least seven days notice prior to the conference. If necessary, the booking may be cancelled up to 14 days before the conference without due reason and a full refund will be given.
